

Marion Pepper, PhD, Associate Professor and Chair of the Department of Immunology at University of Washington, *Understanding immune memory*

April 4

Faculty Host: Jonathan Maltzman, MD, PhD

Diane Mathis, PhD, Professor of Immunohematology, Microbiology and Immunobiology and Division Head, Microbiology and Immunobiology | Division of Immunobiology at Harvard Medical School, *Thymic mimetic cells: tolerogenic masqueraders*

April 11

Faculty Host: Eric Meffre, PhD

Elizabeth Ann Enninga, PhD, Associate Consultant I of the Department of Obstetrics and Gynecology, Immunology | Assistant Professor at Mayo Clinic College of Medicine and Science, *T cells and placental inflammation: what does it mean*

April 18

Faculty Host: Mike Angelo, MD, PhD

Jennifer Trowbridge, PhD, Associate Professor at The Jackson Laboratory, *Hematopoietic stem cell-intrinsic and -extrinsic contribution to blood aging and clonal hematopoiesis*

April 25

Faculty Host: Sean Bendall, PhD

Elsa Bou Ghanem, PhD, Assistant Professor of the Department of Microbiology and Immunology at University at Buffalo Jacobs School of Medicine & Biomedical Sciences, *Age-driven changes in neutrophil responses during infection*

May 2

Faculty Host: Jennifer Bando, PhD

Jason Cyster, PhD, Investigator of the Howard Hughes Medical Institute and Professor and Vice-Chair in the Department of Microbiology and Immunology at UCSF, *Deciphering the guidance cue code for immunity*

May 9

Faculty Host: Eugene Butcher, MD

Lily Yang, PhD, Associate Professor of Microbiology, Immunology & Molecular Genetics at UCLA

CANCELED
May 16

Faculty Host: Paul Bollyky, MD, PhD

Darrell Irvine, PhD, Professor of Departments of Biological Engineering and Materials Science & Engineering, Koch Institute for Integrative Cancer Research at MIT, *Engineering therapeutic timing and localization for enhanced vaccines and cancer immunotherapy*

May 23

Faculty Host: Bali Pulendran, PhD

Linde Meyaard, PhD, Professor of Immune Regulation | University Medical Center Utrecht at Oncode Institute, *Inhibitory pattern recognition receptors in health and disease*

May 30

Faculty Host: Sean Bendall, PhD

Hilde Cheroutre, PhD, Professor, Center for Autoimmunity and Inflammation, Center for Cancer Immunotherapy at La Jolla Institute for Immunology

June 6

Faculty Host: Mike Howitt, PhD
