

CDIII Committee Newsletter

Quarterly Newsletter of the Stanford Immunology CDIII Committee

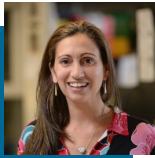

Community, Diversity and Inclusion in Immunology (CDIII) Committee Mission:

“To promote a culture of diversity, equity, inclusion and belonging in the Immunology Program through the identification and recommendation of long-lasting creative solutions that embrace anti-racism principles and eliminate systemic bias.”

Meet the 2021 CDIII Committee Members

CHAIR

Juli Idoyaga

STARTING OCTOBER 2020

We've been meeting once a month to:

- understand problems in the Stanford Immunology community
- recommend creative solutions
- apply solutions and follow outcomes over time
- design ways to help and support all members of the community

Would you like to hear more about our meetings? Please visit <https://drive.google.com/drive/folders/0ANuZJrf-h6NIUk9PVA> to read our meeting minutes.

PROGRAMS ESTABLISHED DURING 2021:

- Yearly CDIII committee session in Asilomar
- Stanford Immunology Survey for the identification of critical problems
- Stanford Immunology Preview Program
- SIRPA Program
- Stanford Immunology Faculty Reflective Survey
- Stanford Immunology Prosper Program
- New form for Faculty application to the Immunology Program
- Yearly support to Black in Immuno
- Recognition of trainee work on the CDIII committee through compensation

STILL A LONG WAY TO GO!

Our next steps aim to:

- Provide channels for reporting DEIB concerns within labs and classrooms
- Training faculty, staff, postdocs and student about DEIB
- Open channels of communication between member of the Immunology community
- Increase transparency and communication between CDIII and community members
- Advise about faculty appointment and reappointment to the Stanford Immunology Program

We need your help:

Please email cd3committee@lists.stanford.edu if you would like to get involved!

“identification and recommendation of long-lasting creative solutions that embrace anti-racism principles and eliminate systemic bias”
