

Flip Panel

Flip Panels create dual-sided panes to reveal consolidated content, whether an image, text, video, etc. When users clicks the icon, the panel flips to display content on the reverse of the panel.

Features

- Simple to use and setup
- Add many on a single page
- Creates new zones to add more components

Add interactivity through reversible panes

Pro Tips

- Good for Profile 'cards', Q&A and general fun facts
- Balance the amount of content on both sides so there's minimal empty space
- Use with Panel Builder columns to control width and vertical alignment
- Do not use with other collapsible components (e.g. Accordions)
