

Definition List

Description of Component

The Definition List component allows web authors to create items with associated descriptions manually in a list view.

How to Use the Component

1. You can identify the Definition List component in the Web Author toolkit as follows:

2. Drag the component onto the page in the place where you want the text to display.

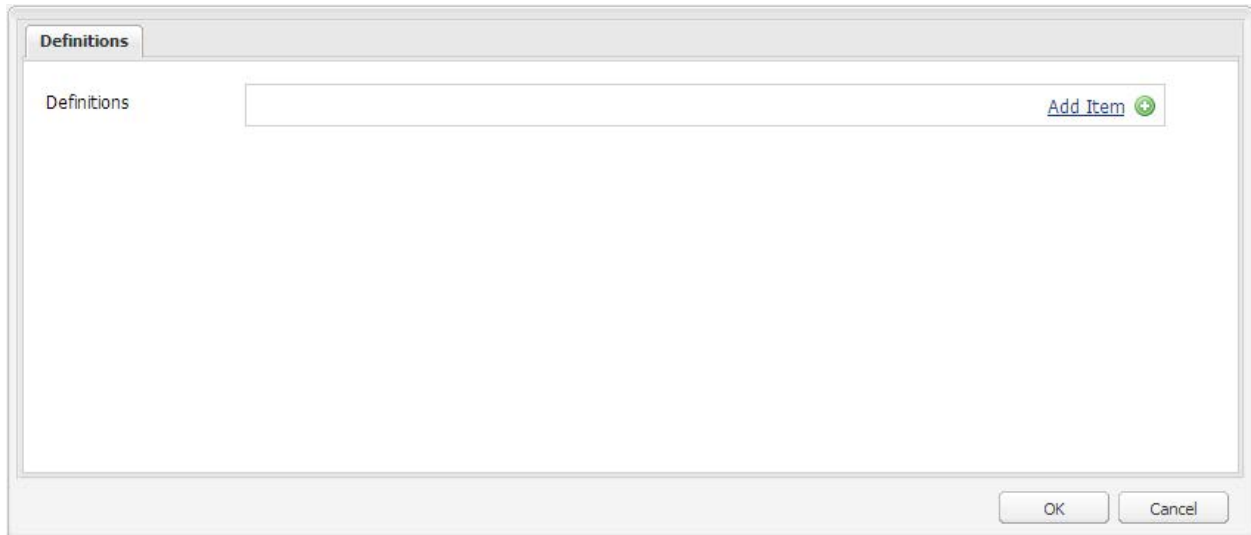

3. Or, right click and select New.

4. Right click or double click to edit.

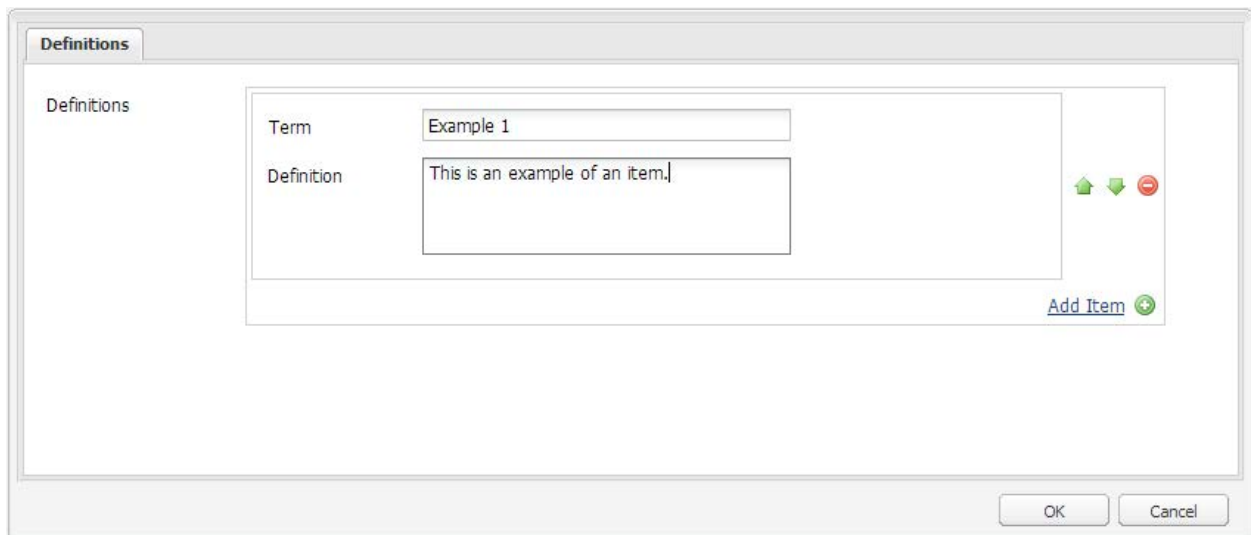

5. Click Add Item.

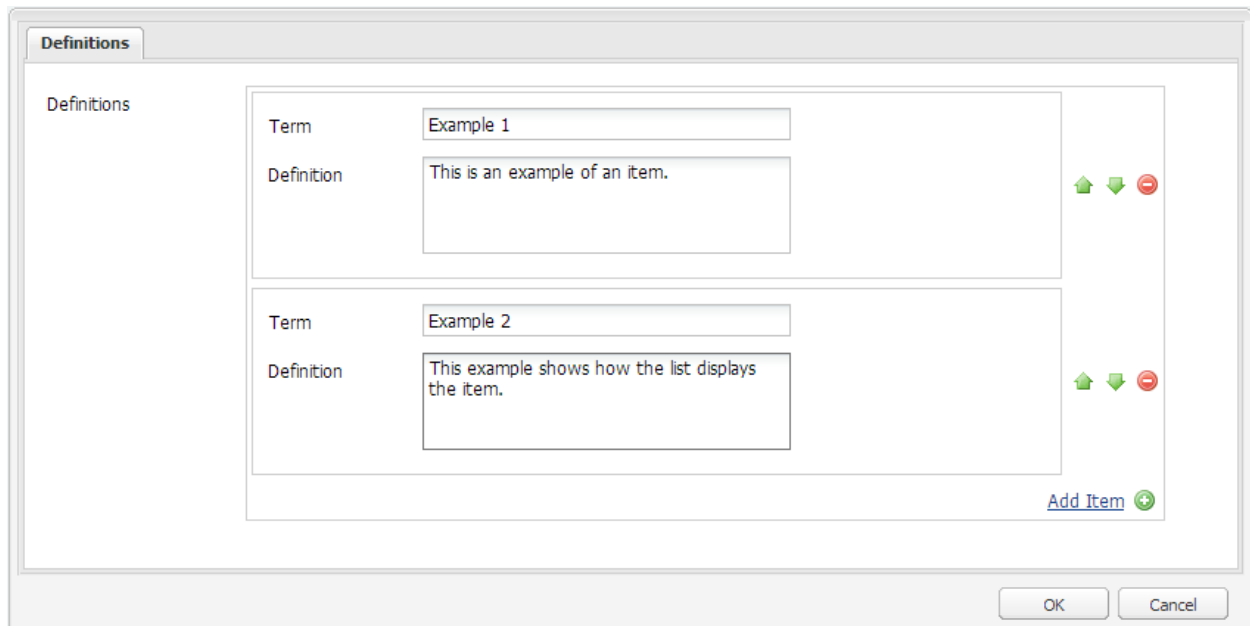

The screenshot shows a dialog box titled "Definitions". On the left, the word "Definitions" is displayed. To its right is a large, empty rectangular text input field. In the top right corner of this field, there is a blue link labeled "Add Item" followed by a green plus icon. At the bottom right of the dialog box, there are two buttons: "OK" and "Cancel".

6. Add the Term and Definition to display.

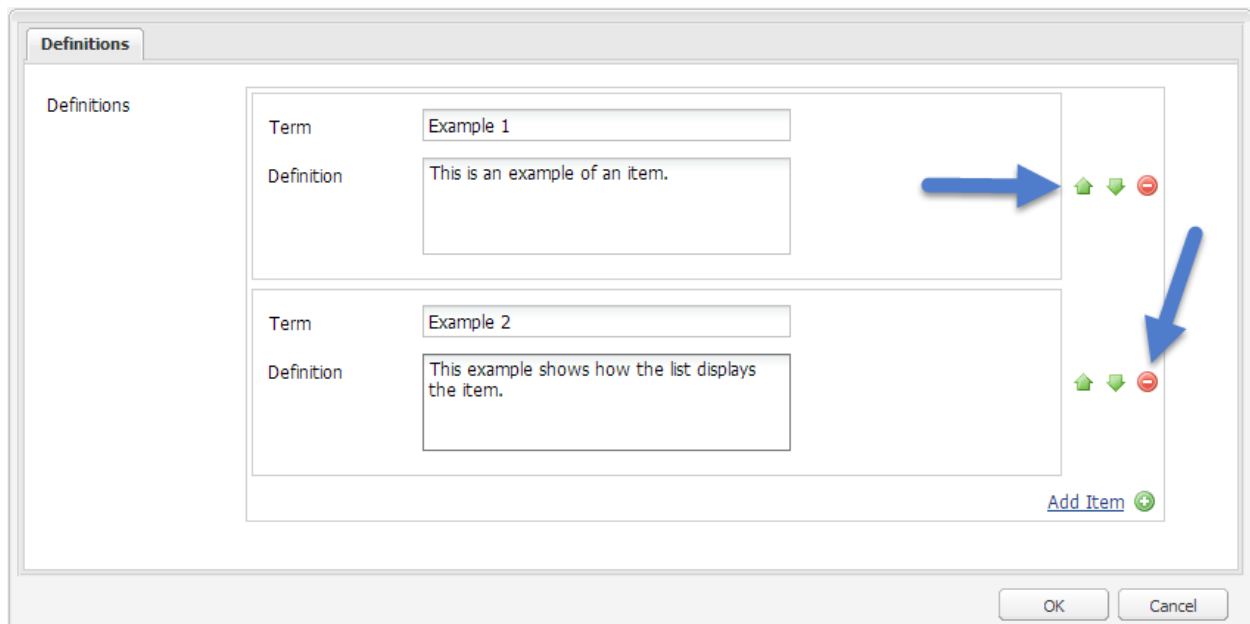

The screenshot shows the same "Definitions" dialog box, but now it contains a form with two input fields. The top field is labeled "Term" and contains the text "Example 1". The bottom field is labeled "Definition" and contains the text "This is an example of an item,.". To the right of these fields are three small icons: a green up arrow, a green down arrow, and a red circle with a white minus sign. Below the form, there is a blue link labeled "Add Item" with a green plus icon. At the bottom right of the dialog box, there are two buttons: "OK" and "Cancel".

7. To add another item click Add Item.

8. Using the arrows, you can move the items to display in a different order. Additionally, you can delete an item by clicking the minus sign.

9. Click OK to save the changes to the page.

Results

The items display on the page similar to the example below.

Example 1

This is an example of an item.

Example 2

This example shows how the list displays the item.
