Suspicious Skin Lesions

Pigmented Skin Lesions

Priority #1
MEL0014
Change Detection of Cutaneous Lesions using Image Capture and Machine Learning
P: Novoa
Stanford

Melanoma
See Melanoma Flowchart

Priority #2
MEL0031
A Clinical Validation Study to Demonstrate the Effectiveness of an Artificial Intelligence Algorithm (DERM) to Identify Skin Cancer in Patients Undergoing a Skin Biopsy.
P: Novoa
Stanford

Non-Pigmented Skin Lesions

Priority #1
MEL0031
A Clinical Validation Study to Demonstrate the Effectiveness of an Artificial Intelligence Algorithm (DERM) to Identify Skin Cancer in Patients Undergoing a Skin Biopsy.
P: Novoa
Stanford

Priority #2
MEL0014
Change Detection of Cutaneous Lesions using Image Capture and Machine Learning
P: Novoa
Stanford
